

⚡ PRODUCTION RUNTIME DIRECTORY

THE ANTIGRAVITY PROMPT PLAYBOOK

Ready-to-Copy Natural English Prompts for 387+ Installed
Production AI Skills

TOTAL ACTIVE SKILLS

421 Skills

SCOPE

Global (All Projects)

SETUP REQUIRED

Zero (Pre-Activated)

HOW TO USE THIS PLAYBOOK

1. Find the specific engineering, security, architecture, or business task you need done.
2. Copy the exact prompt text inside the highlighted prompt box.
3. Paste it directly into your Antigravity chat prompt.
4. Antigravity automatically activates the specialized senior persona and executes production-ready work.

Full System Architecture Review

senior-architect

READY-TO-COPY PROMPT

Act as a senior systems architect. Review my current project structure, analyze module coupling, identify potential scaling bottlenecks, and generate a Mermaid architecture diagram.

Under the hood: Analyzes dependency trees, module coupling, cohesion, and outputs Mermaid system diagrams.

Database Schema Design

database-designer

READY-TO-COPY PROMPT

Design a production-grade relational database schema for my app with proper foreign keys, normalization, indexing strategies, and migration steps.

Under the hood: Builds optimal SQL schemas with indexing, constraints, partitioning, and migration runbooks.

Microservices vs. Monolith Evaluation

senior-architect / cto-advisor

READY-TO-COPY PROMPT

Evaluate whether our current application should remain a modular monolith or break down into microservices based on traffic, team size, and latency requirements.

Under the hood: Applies 6-phase trade-off matrix on operational cost, network hops, distributed transactions, and team topology.

Zero-Downtime Data Migration

migration-architect

READY-TO-COPY PROMPT

Create a zero-downtime database migration plan for updating our production tables with dual-write patterns and rollback mechanisms.

Under the hood: Constructs blue-green data migration scripts with forward/backward compatibility checks.

Feature Flag System Architecture

feature-flags-architect

READY-TO-COPY PROMPT

Design a robust feature flag and canary rollout system for our application with fallback safeguards and zero performance overhead.

Under the hood: Designs flag lifecycle, client evaluation caching, and technical debt cleanup plans.

Full App Security Audit

senior-security

READY-TO-COPY PROMPT

Act as a senior security engineer. Perform an end-to-end security audit on our frontend, API endpoints, authentication flows, and data storage for OWASP Top 10 vulnerabilities.

Under the hood: Audits XSS, CSRF, broken access control (BOD/IDOR), authentication bypasses, and insecure headers.

Cloud Infrastructure Hardening

cloud-security

READY-TO-COPY PROMPT

Inspect our cloud infrastructure and deployment configurations for open IAM permissions, exposed storage buckets, and security group misconfigurations.

Under the hood: Maps cloud posture across AWS/GCP/Azure against CIS benchmarks and least-privilege policies.

Secrets & Environment Audit

env-secrets-manager

READY-TO-COPY PROMPT

Audit all .env files, build configs, and repository files to ensure no sensitive API keys, database credentials, or private secrets are leaked or committed.

Under the hood: Scans code for entropy leaks, plain-text credentials, and generates rotation strategies.

Adversarial Red-Team Attack Path

red-team

READY-TO-COPY PROMPT

Act as an adversarial red-team hacker. Analyze our application architecture and formulate 5 potential attack paths an attacker could take to compromise data.

Under the hood: Maps MITRE ATT&CK techniques, lateral movement paths, and provides defensive remediations.

API Pen-Testing & Threat Hunting

security-pen-testing

READY-TO-COPY PROMPT

Review all public API routes, rate-limiting rules, payload sanitization, and input validations to detect injection or tampering vulnerabilities.

Under the hood: Tests endpoint parameters, SQLi/NoSQLi vectors, and authorization boundaries.

3. Testing, QA Automation & Flakiness Repair

Quality Assurance

End-to-End Browser Testing

[browser-automation](#) / [generate](#)

READY-TO-COPY PROMPT

Generate an end-to-end browser automation test suite that tests our core user journeys: checkout, form validation, responsive views, and error edge cases.

Under the hood: Builds robust browser automation specs with reliable selectors, network mocks, and screenshots.

Fix Failing or Flaky Tests

[fix](#) / [senior-qa](#)

READY-TO-COPY PROMPT

Our automated tests are flaky and intermittently failing. Debug the test race conditions, locator timeouts, and async wait issues, and fix them cleanly.

Under the hood: Replaces arbitrary sleep timers with auto-waiting locators, deterministic assertions, and network sync.

Test-Driven Development (TDD)

[tdd](#) / [tdd-guide](#)

READY-TO-COPY PROMPT

Guide me through building this new feature using strict TDD. Write the unit tests first covering all edge cases, then write the minimal code to pass them.

Under the hood: Implements red-green-refactor cycles, comprehensive test fixtures, and mock isolation.

4. Frontend, Fullstack & Clean Code Standards

UI/UX & Code Quality

High-End UI/UX Refactoring

senior-frontend / ui-design-system

📄 READY-TO-COPY PROMPT

Act as a senior frontend architect. Review my UI components, improve visual aesthetics with modern design tokens, typography, and micro-interactions without breaking layout.

Under the hood: Refines layout hierarchy, theme tokens, fluid responsiveness, and subtle micro-animations.

Zero-Hallucination Surgical Code

karpthy-coder / zero-hallucination-coder

📄 READY-TO-COPY PROMPT

Refactor this code following Karpathy's coding principles: keep it minimal, do not invent external functions, keep changes surgical, and avoid unnecessary abstractions.

Under the hood: Enforces lean, surgical diffs, verified stdlib/package APIs, and eliminates dead code.

Adversarial Code Review

adversarial-reviewer

📄 READY-TO-COPY PROMPT

Conduct an adversarial code review of my recent changes. Don't be agreeable—hunt for edge case bugs, memory leaks, state desynchronization, and silent failures.

Under the hood: Critiques pull requests with a hostile auditor lens to uncover blind spots before production.

Accessibility (WCAG 2.2 AA) Audit

a11y-audit

📄 READY-TO-COPY PROMPT

Audit our web pages for WCAG 2.2 Level AA accessibility compliance. Check color contrast ratios, screen reader labels, keyboard navigation, and ARIA roles.

Under the hood: Scans DOM structure, focus management, color contrast formulas, and semantic HTML tags.

5. DevOps, CI/CD & Cloud Infrastructure

Infrastructure

Automated CI/CD Pipeline

ci-cd-pipeline-builder

📄 READY-TO-COPY PROMPT

Detect our project stack and generate a production-ready GitHub Actions / Cloudflare CI/CD pipeline with automated linting, test suites, and staging/prod deploy stages.

Under the hood: Generates optimized YAML workflows with caching, secret binding, test matrices, and fast deploy steps.

Docker Multi-Stage Build

docker-development

READY-TO-COPY PROMPT

Create an optimized, secure multi-stage Dockerfile for this project that minimizes image size, runs as a non-root user, and caches dependency layers.

Under the hood: Builds lean container images, removes dev dependencies, and hardens container security.

Kubernetes Deployment & Manifests

kubernetes-operator

READY-TO-COPY PROMPT

Write production-ready Kubernetes manifests (Deployment, Service, Ingress, HPA, ConfigMap) with liveness/readiness probes and resource limits.

Under the hood: Generates fault-tolerant K8s manifests, rolling update configurations, and autoscaling thresholds.

6. Regulatory, Legal & Compliance Audits

Legal & Security Frameworks

GDPR & Privacy Audit

gdpr-audit-prep

READY-TO-COPY PROMPT

Act as a data protection compliance officer. Audit our application for GDPR compliance, Article 30 records, consent mechanisms, and data subject access request (DSAR) readiness.

Under the hood: Checks cookie consent banners, telemetry collection, PII anonymization, and privacy notices.

ISO 27001 Security Audit Prep

iso27001-audit-prep

READY-TO-COPY PROMPT

Prepare an ISO 27001 ISMS internal audit checklist for our application, covering Annex A controls, access logs, encryption at rest/transit, and incident handling.

Under the hood: Generates control verification matrices and evidence collection guidelines.

SOC 2 Type II Readiness

soc2-audit-prep

READY-TO-COPY PROMPT

Review our systems against SOC 2 Trust Services Criteria (Security, Availability, Confidentiality). Identify compliance gaps and required audit logs.

Under the hood: Audits centralized logging, RBAC policies, employee onboarding access, and backup retention.

EU AI Act Risk Assessment

ai-act-readiness

READY-TO-COPY PROMPT

Classify our AI features under the EU AI Act risk tiers (Prohibited, High-Risk, Transparency/Minimal Risk) and draft the required compliance documentation.

Under the hood: Maps technical documentation requirements, training data provenance, and human-in-the-loop oversight.

7. Executive, C–Suite Advisory & Product Strategy

Leadership

CTO Strategic Review

cto-advisor

READY-TO-COPY PROMPT

Act as my Chief Technology Officer. Stress-test our technology stack, build vs. buy decisions, runway burn, and technical debt prior to our investor board meeting.

Under the hood: Conducts high-level architectural interrogation, tech debt scoring, and engineering velocity analysis.

CFO Financial & SaaS Modeling

cfo-advisor / saas-metrics-coach

READY-TO-COPY PROMPT

Act as our CFO. Analyze our revenue model, gross margin, customer acquisition cost (CAC), lifetime value (LTV), and calculate runway scenarios.

Under the hood: Builds rolling forecasts, unit economics models, and pricing elasticity tests.

Product Discovery & PRD Spec

product-manager / prd

READY-TO-COPY PROMPT

Act as a Senior Product Manager. Help me refine this product idea, map user personas, prioritize features using RICE, and write a comprehensive PRD.

Under the hood: Drafts Product Requirement Documents with acceptance criteria, user stories, and telemetry metrics.

8. Growth, Marketing Engineering & SEO

GTM & Acquisition

Technical SEO Audit

seo-audit

READY-TO-COPY PROMPT

Perform a technical SEO audit on our web application. Check meta tags, structured JSON-LD schemas, OpenGraph previews, crawlability, and Core Web Vitals.

Under the hood: Audits semantic markup, schema.org tags, robots.txt, sitemaps, and mobile responsiveness.

High-Converting Landing Page Copy

copywriting / landing-page-generator

READY-TO-COPY PROMPT

Write high-converting, punchy copy for our homepage hero, value propositions, social proof testimonials, and primary CTA using behavioral psychology principles.

Under the hood: Applies conversion rate optimization (CRO) formulas, clarity-over-cleverness, and objection handling.

Programmatic SEO Strategy

programmatic-seo

READY-TO-COPY PROMPT

Design a programmatic SEO architecture to generate location and feature pages dynamically with unique value, canonical links, and zero duplicate content penalties.

Under the hood: Builds scalable URL structures, template data models, and internal linking graphs.

Antigravity Global AI Runtime • 421 Total Production Skills Installed Globally at `~/ .gemini/config/skills` • Built with ❤️ for High-Velocity Engineering
